

Timber and Pallet Recycling

Creating value from waste timber and pallets through recycling & re-use

Almost every manufacturer deals with the problem of waste timber in the form of pallets.

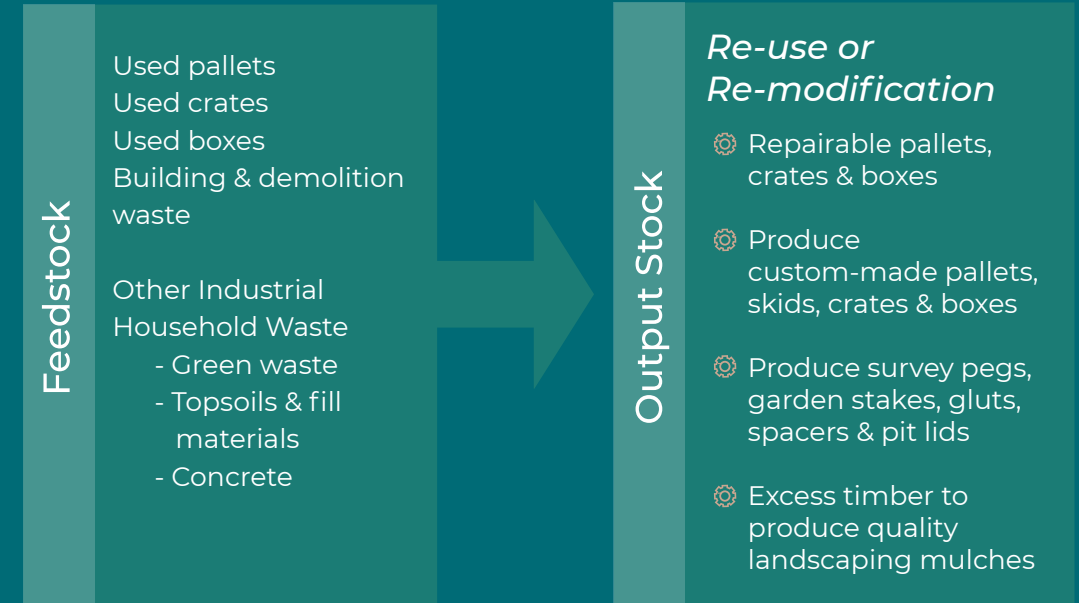

These are troublesome, as they are difficult to dispose of without taking up costly space in the waste to landfill bin, while they take up valuable space if stored on site.

Our Solution

Waste Converters / Smart Recycling

City of Greater Dandenong

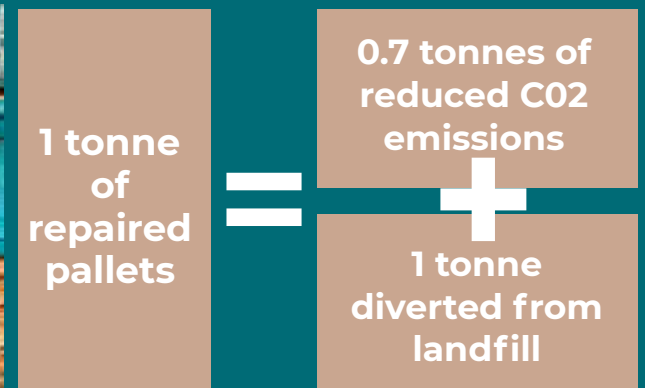

The Benefits

- ✓ SMEs save money on pallet & box purchases
- ✓ Demand for re-used material
- ✓ Environmentally friendly remanufactured solutions save energy and material costs
- ✓ Mitigates the rising costs of landfill disposal of timber/pallet waste
- ✓ Create a sustainable cycling loop
