

# A Tech Recyclers

Electronic waste finds a new home with local Melbourne recycler

E-waste or electronic waste is one of the fastest growing waste streams in the world. It includes products such as televisions, computers, laptops, mobile phones, monitors and cables; most types of electrical products that have ceased to be of use to their owners. A total of 30-50 million tonnes are disposed of annually, around the world.

## 30-50mill tonnes

of E-Waste disposed annually around the world

## 109,000 tonnes

of E-waste in Australia was disposed

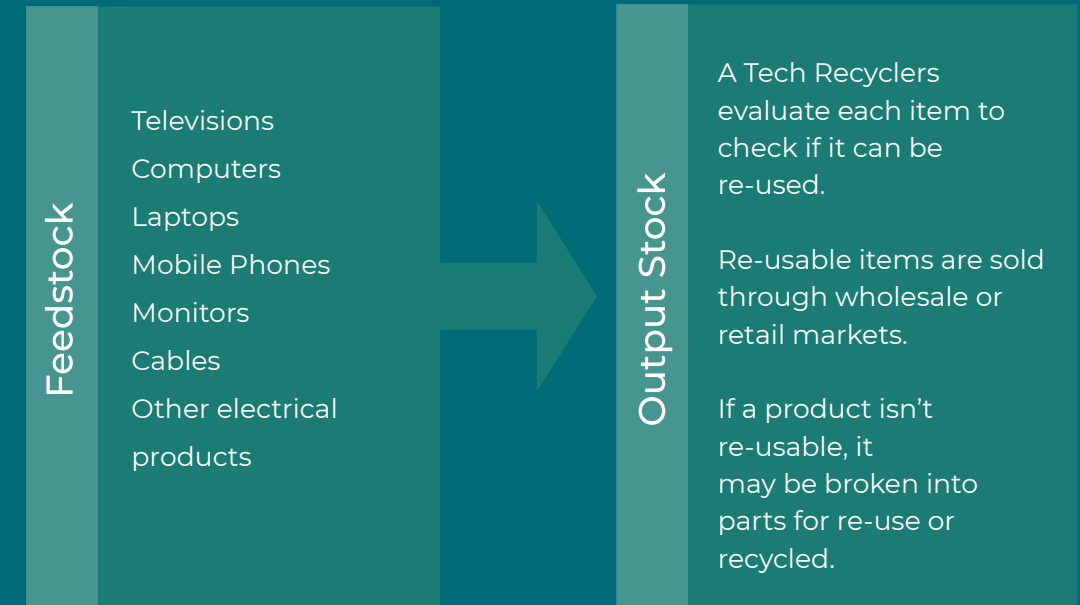

**10%**  
was only recycled

*"I estimate we collected around a football field of electronics last year. People really don't know where to take their electronics. Our business fills that gap and ensures electronic waste is reused and diverted from landfill"*

**Tiko Gawin, Founder & Managing Director, A Tech Recyclers**

## Our Solution

City of Kingston

## The Benefits

- ✓ New connections formed through ASPIRE platform, increasing their client base.
- ✓ Helped the engagement with other councils that are on ASPIRE platform.
- ✓ Further tackle the E-waste problem in Australia more effectively.
